Did you get with this bulletin your free colorplate of *Canna Mrs. Du Pont*? If not, write for it today.

LEADING CANNAS MUCH IN DEMAND

Prominent Park Commissioners and the Dept. of Agriculture first recognized the superiority of  Cannas. These gentlemen, as every successful tradesman knows, insist strongly on having the best America produces. Gradually leaders, offering bulbs, have catalogued these new Cannas, and, we believe, have found ready sale for them. Try some yourself, and notice how your trade takes to the new colors and firm large flowers. If you can't afford 100, get 25 at the 100 rate; or even send for 10, but GET STARTED NOW. We think it will pay you.

(Dormant 2-3 eye divisions, except as noted)	10	100

"Mrs. du Pont heads list of novelties seen this season. Palm Beach another novelty of importance."

Horticulture, Sept. 15, 1924.

Prices below are for dormant roots. Send for quotations on plants from 3" pots, ready April 15.

MAR 19 1925

¤ MRS. PIERRE S. du PONT Wintzer's *BEST CANNA* after Thirty Years

FOREIGN PLANT QUARANTINES

ANTOINE WINTZER died on February 4, 1925, but for many, many years to come his Cannas will be a joy to all who plant them. Through 30 uninterrupted years of honest, devoted effort, with results that are a credit to him and to the firm he so long represented, Antoine Wintzer glorified the Canna perhaps more than all other American hybridizers combined.

Mrs. Pierre S. du Pont was not only his newest pink Canna, but he looked upon it as his best. Shown in natural colors on other side. Prices to the trade:

Per 100 **\$150** Per 10 **\$17.50** Each **\$2**

THE CONARD-PYLE COMPANY

ROBERT PYLE, President

WEST GROVE, PENNA.

GLORIFIED
NEW CANNA,
MRS. PIERRE
S. DU PONT

MRS. PIERRE S. DU PONT. 4 ft. The Queen of all the pink Cannas and so nearly perfect in every way that the only thing we could suggest for absolute perfection is fragrance, and no Canna yet is sweet scented.

Color is a vivid watermelon-pink and each individual flower is very large but does not wilt in the hot summer sun. Visitors here are amazed that such a marvelous head of glorious flowers could be produced on one stem.
